4. Double attack (Difficulty level: Normal)

It is the next part of double attack where you may not be able to do double attack on the first move. You need to form the position of double attack in the first move and apply the tactic on the second move.

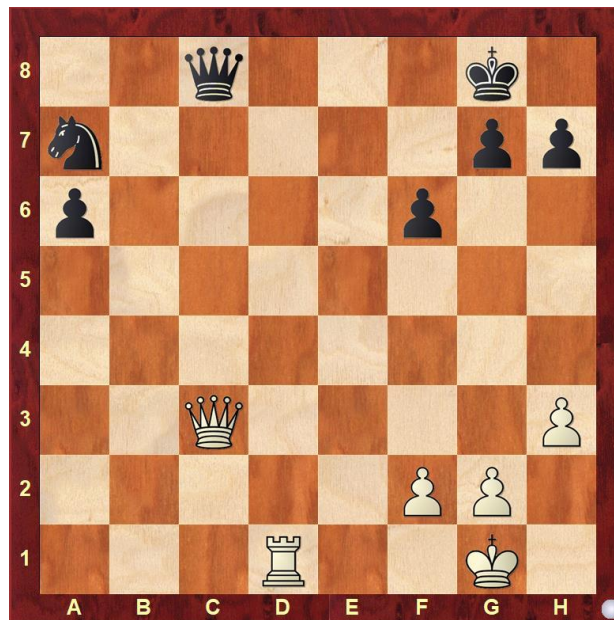

Diagram 4.1

In the diagram 4.1, white plays 1. Qxc8 forcing black to play Nxc8. Therefore, white can easily perform a double attack by playing Rd8+ (double attack: check+1piece) and then the black saves the king by playing Kf7 and then the white can easily gain a material advantage by playing Rxc8.
